Portugal, a name to remember.

Established since 1984, the Portuguese Association of Furniture and Related Industries (APIMA) represents the sector national and internationally. Throughout its existence APIMA has been playing a fundamental role in the development of the sector, giving it the importance and recognition it deserves.

INTERFURNITURE is a registered brand created by APIMA to give an identity to its international projects and promote the sector's competitiveness. Promotional actions are developed to show the world that the Made in Portugal stands for high quality products and services.

Allied to its identity it has also been created the slogan "Portugal, a name to remember". This signature is the complement for the created word and is intended to call the attention upon the Portuguese product as something to remain in the memory of those who have the privilege of getting in touch with it.

Once again APIMA organizes the Portuguese participation in this event presenting the best of Portugal in the furniture and decoration market place.
